

FERNANDO RODRÍGUEZ SIDRO

Senior Software Engineer | Full-Stack Engineer

 frodriguezsidro@gmail.com |  +34 637 21 60 29 |  Remote

PERFIL PROFESIONAL

Senior software engineer with over 10 years of experience building robust backend and frontend solutions, leading development teams and managing innovation projects within IT and industrial environments. Extensive experience working remotely, coordinating multidisciplinary teams and developing distributed, microservices-based applications. Seeking remote opportunities to continue growing as a full-stack engineer, contributing strong technical expertise and leadership skills.

EDUCATION

Bachelor's Degree in Computer Engineering, Software
Specialization Universitat Jaume I – Castellón, 2016

LANGUAGES

Spanish / Valencian: Native
English: C1 (Official Language School)
German: A2 (Official Language School)

TECHNOLOGICAL STACK

Programming Languages: Java (1.8, 8, 13, 21), Python (Django), Node.js, JavaScript, TypeScript

Frontend: Angular (8-20), Ionic, HTML, CSS, Smartclient

Backend: Spring Boot, Django REST, Express.js

Databases: PostgreSQL, MySQL, MongoDB, InfluxDB, Microsoft SQL Server

Testing: JUnit, Mockito, Selenium

DevOps & Protocols: Docker, Git, GitLab CI/CD, HTTP, API REST, Modbus, MQTT, Zigbee

ERPs & CRMs: Openbravo ERP, SugarCRM, Odoo

PROFESSIONAL EXPERIENCE

Senior Full-Stack Engineer (Freelance · Healthcare Sector)

Confidential Projects – Remote

May 2025 – Present

- Development of full-stack applications for the healthcare sector, working on critical systems focused on clinical data management, visualization and processing.
- Implementation of modern frontends using Angular 20 and backends with Java 21, following best practices in architecture, security and maintainability.
- Collaboration with multidisciplinary teams (product, QA, business) in agile environments, contributing to technical decisions and solution design.
- Strong focus on code quality, performance and scalability, ensuring compliance with healthcare regulations and requirements.

Senior Full-Stack Engineer (Hybrid)

Sep 2020 – April 2025 *Mas Ingenieros – Castellón*

- Led the design, development and maintenance of proprietary software products and custom solutions for industrial sector clients, focused on process optimization and physical device monitoring.
- Designed and implemented microservices-based architectures using Spring Boot, alongside scalable Angular frontends (up to v15), leveraging both relational and non-relational databases.
- Specialized in integration with industrial hardware and systems, working with protocols such as MQTT, Modbus TCP, Zigbee and HTTP.
- Managed end-to-end projects (analysis, architecture, development, testing and deployment), coordinating remote teams under agile methodologies.
- Defined a modular and reusable software ecosystem, enabling scalability and reuse across multiple clients and industrial environments.

Navision / Business Central Developer & Analyst

Feb 2020 – Sep 2020 *Innova Consulting – Castellón*

- Participated in the implementation and customization of enterprise solutions based on Microsoft Dynamics NAV and Business Central.
- Performed functional and technical analysis to adapt the system to specific business needs, including integration with external services.
- Provided technical support and delivered training sessions to end users and internal support teams.

Full-Stack Developer (Remote Java + Angular)

Mar 2018 – Feb 2020 *Buypower - Mataró*

- Led the development of a modular web platform using Angular 8 and Spring Boot, working within a distributed team.
- Collaborated closely with stakeholders in requirements gathering and functional validation.
- Designed and implemented automated integration and end-to-end tests using JUnit and Selenium, integrated into CI/CD pipelines, improving stability and reducing production incidents.

ERP Developer & Analyst

Apr 2015 – Mar 2018 *Opentix - Castellón*

- Led ERP implementation projects at national and international level (Spain and Chile).
- Integrated platforms such as Openbravo ERP, SugarCRM and mobile applications.
- Acted as technical lead for small teams and defined internal development methodologies.
